White House, making it a showcase for American art and culture. She also traveled extensively, representing the United States with grace and charm.

After the tragic assassination of President Kennedy in 1963, Jackie withdrew from public life for a time. Jackie married John F. Kennedy in 1953, and they had four children, two of whom survived infancy: Caroline and John Jr. Her marriage to JFK was marked by both public adoration and private challenges, including his numerous infidelities. Despite these difficulties, Jackie remained a devoted wife and mother.

After JFK's assassination, Jackie faced immense grief but maintained her dignity and poise. Her marriage to Aristotle Onassis was controversial but provided her with a sense of stability and security.
